Executive Summary

- i. The Eastleigh Borough Council 'Calculation of Five-Year Housing Land Supply' document has been prepared to identify the latest five-year housing land supply position as of 1st April 2020. It comprises this main document and appendices detailing the housing sites involved and is the second quarterly update produced by Hampshire County Council.
- ii. On the basis of the information as presented in this document it is concluded that Eastleigh Borough Council **can comfortably demonstrate a five-year supply of housing, with 5.6 years' worth of housing using the Local Housing Need figure and a 5% buffer.**
- iii. A total of 4,053 dwellings are expected to be delivered between 1st April 2020 and 31st March 2025. This is a reduction of 599 dwellings from the previous Hampshire County Council report (4,652) which covered the 1st January 2020 to 31st December 2024. The reduction within the figures is principally owing to the uncertainty surrounding the possible implications of the COVID pandemic on housing supply. Therefore, an even more cautious approach has been taken on the likely delivery on sites over the next five years. This alongside Eastleigh also experiencing their highest completions recorded in recent years, with a net gain of 1,223 dwellings delivered between 1st April 2019 and 31st March 2020. These dwellings however have now been taken out of the supply and this, along with relatively few new large sites coming forward recently has led to a decrease in the number of commitments in the pipeline.

1 Introduction

1.1 Hampshire Services has been instructed by Eastleigh Borough Council ("the Council") to assemble and analyse evidence of housing land supply, in order to inform an update to the Council's five-year housing land supply position.

1.2 The purpose of this assessment is to consider whether there are sufficient deliverable sites within Eastleigh Borough to demonstrate provision of at least five years' worth of housing. The housing requirement that it will primarily be measured against for this update is that based on the 'local housing need' derived from the 'standard method', including an appropriate buffer to ensure choice and competition in the market for land.

1.3 This assessment uses a base date of 1st April 2020 and covers the anticipated supply to be delivered in the five-year period from 1st April 2020 to 31st March 2025. The assessment includes up-to-date information regarding permissions, commencements, and completions, including contributions from developers on when, and how quickly, sites are likely to come forward.

2 Policy Background

2.1 The National Planning Policy Framework 2019 (NPPF) requires Local Planning Authorities to assess and demonstrate a five-year supply of deliverable sites. Specifically, paragraph 73 of the NPPF states:

“Local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years’ worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old.”

2.2 Furthermore, the NPPF supports the inclusion of a windfall allowance in the five-year supply where there is compelling evidence that suggests this is a reliable source of supply.

2.3 Where an authority has an up-to-date plan-based housing requirement (adopted in the last five years), the housing requirement set out in the local plan is the basis for assessing five-year housing land supply. Otherwise the assessment is against the local housing need figure, calculated using the government’s standard methodology. Eastleigh’s adopted Local Plan is more than five years old, and therefore the assessment of five-year housing land supply is made against the local housing need figure. Nevertheless, the Council has submitted a replacement Local Plan to the Secretary of State for examination, with adoption expected in 2020. For comparison, a five-year land supply position based on the housing requirement proposed in this Plan with a 10% buffer is set out at the end of the report.

3 Methodology for Calculating the Five-Year Supply

Source of Housing Target

3.1 The local housing need requirement for Eastleigh is based on the standard method. Previously this meant that Eastleigh had a local housing need figure of 721 dwellings per annum using the 2014-based household projections for the period 2019-2029, and the 2018 affordability ratio to derive a total five-year housing land supply requirement of 3,605 dwellings.

3.2 The data for the standard method however has now been updated to a 2020 position. Whilst the 2014-based household projections are still used, the period now covers 2020-2030, and the 2019 affordability ratio (released in March 2020) now has the most recent figures. The updated figures now give a local housing need figure of 694 dwellings per annum. Giving a total five-year housing land supply requirement of 3,470 dwellings. The workings for the figures are shown below.

Step 1: Setting the baseline

2014-based household projections¹ for Eastleigh Borough

Households in 2020 = 57,206

Households in 2030 = 62,270

¹ <https://www.gov.uk/government/statistical-data-sets/live-tables-on-household-projections>

Households growth between 2020 and 2030 = 5,064

Households growth per annum = 506.4

Step 2: An adjustment to account for affordability

2019 median workplace-based affordability ratio² for Eastleigh Borough 9.94

$$\text{Adjustment factor} = \left(\frac{\text{Local affordability ratio} - 4}{4} \right) \times 0.25 + 1$$

$$9.94 \text{ (local affordability ratio)} - 4 = 5.94$$

$$5.94 / 4 = 1.485$$

$$1.485 \times 0.25 = 0.37125$$

$$0.37125 + 1 = 1.37125$$

Giving an annual local housing need figure for Eastleigh Borough

(adjustment factor) x projected household growth

$$1.37125 \times 506.4 = 694 \text{ (rounded)}$$

Step 3: Capping the level of any increase

3.3 Eastleigh Borough adopted its Local Plan update in 2006 and therefore the adopted plan is more than 5 years old. A cap may therefore be applied whichever is the higher of:

600 dwellings per annum as set out in the 2006 Local Plan

506.4 dwellings per annum based on the average annual household growth 2020-2030

3.4 The cap is set at 40% above the higher of either the most recent average annual housing requirement figure or average household growth figure. The most recent average annual housing requirement figure is the highest in this case (600 dpa).

$$600 \times 40\% = 840$$

3.5 The capped figure (840) is however greater than the 694 dwellings per annum and is not therefore applicable.

3.6 The annual need for housing for Eastleigh Borough is therefore **694** dwelling per annum.

2

Housing Delivery Test

3.7 The Housing Delivery Test identifies whether past rates of development have met housing requirements (based on the percentage of “net homes delivered against the number of homes required” over a rolling three-year period). Where the requirements of the test have been fully satisfied, there are no further requirements

placed on a local authority. Where a plan-making authority's delivery rate falls below the number of homes required then certain consequences as set out in the NPPF apply, including the application of a 20% buffer on a plan-making authority's five-year housing land supply, if housing delivery falls below 85% of the required number of homes.

3.8 Results published in February 2020 showed that Eastleigh had delivered 2,572 dwellings over the three years between 1st April 2016 and 31st March 2019 against a target of 1,775 dwellings in the same period. This meant that Eastleigh Borough passed the Housing Delivery Test and is not subject to a 20% buffer.

Buffer

3.9 The July revision of the PPG for Housing Supply and Delivery (Paragraph 022 Reference ID: 68-022-201907022) states: To ensure that there is a realistic prospect of achieving the planned level of housing supply, the local planning authority should always add an appropriate buffer, applied to the requirement in the first 5 years (including any shortfall), bringing forward additional sites from later in the plan period. This will result in a requirement over and above the level indicated by the strategic policy requirement or the local housing need figure.

Buffers are not cumulative, meaning that an authority should add only one of the following, depending on circumstances:

- 5% - the minimum buffer for all authorities, necessary to ensure choice and competition in the market, where they are not seeking to demonstrate a 5 year housing land supply;
- 10% - the buffer for authorities seeking to 'confirm' 5 year housing land supply for a year, through a recently adopted plan or subsequent annual position statement (as set out in paragraph 74 of the National Planning Policy Framework), unless they have to apply a 20% buffer (as below); and
- 20% - the buffer for authorities where delivery of housing taken as a whole over the previous 3 years, has fallen below 85% of the requirement, as set out in the last published Housing Delivery Test results.

3.10 Consequently the Local Housing Need plus a 5% buffer being applied would make Eastleigh's figure 729 dwellings per annum.

Delivery

3.11 The NPPF, and accompanying PPG, require that only those sites that are demonstrably deliverable within the five-year period are included within the calculations of supply. They go on to define 'deliverability', identifying sites which, by virtue of their planning status, are considered to be deliverable in principle, as well as those sites where further evidence is required. Further details are provided in the PPG of the types of evidence that could be provided to demonstrate deliverability.

In identifying the sites which can be clearly identified as being deliverable, this study has specifically considered the following:

- the current planning status of the site – allocated, outline planning permission (and progress towards reserved matters), detailed planning permission, or resolution to grant planning permission;
- whether a planning performance agreement is in place for the site;

-
- correspondence with the developer/housebuilder/landowner or agent in relation to anticipated:
 - start date,
 - first housing completions,
 - phasing of development for the duration of the build,
 - information on site assessment work being undertaken,
 - anticipated dates for planning applications being submitted or planning permissions being approved,
 - constraints, ownership and market or cost factors that have the potential to delay delivery of the development;
 - progress towards the discharge of planning conditions;
 - assumed lead-in times, build-out rates and lapse rates
 - general information available from public records relating to typical build-out rates of similar sites and housebuilders general rates of delivery.

Windfall

3.12 The National Planning Policy Framework (NPPF) glossary defines windfall sites as “sites not specifically identified in the development plan”. Paragraph 70 of the NPPF allows local authorities to make an allowance for windfall sites as part of anticipated supply. However, local authorities may only make an allowance for windfall if they have “compelling evidence that they will provide a reliable source of supply”. In addition to this, any windfall allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends.

3.13 The PPG guidance on housing and economic land availability assessment states a windfall allowance may be justified in the five-year housing land supply calculations.

3.14 It should be noted that revisions to the NPPF no longer specifically refer to windfall sites being on previously developed land or considers exclusions should be made to development on residential gardens. However, in the ‘Eastleigh Borough Local Plan 2016-2036 – Housing Trajectory Update published in June 2019’ para 95., the Council have taken a more precautionary approach based on 2012-NPPF compliant approach which continues to exclude garden land. Therefore, the windfall analysis within this report will follow the Council’s current approach.

4 Deliverable Supply

4.1 Hampshire County Council undertakes monitoring of starts, completions and commitments. This data records commitments, sites which have lapsed, and completions on an annual basis including site visits each year to ascertain the situation on sites for a base date of the 1st April of each year. During the year, and outside of the annual visits to sites, data on starts, completions and new permissions are also monitored. Starts and completions during this time are gathered through the receipt of Building Control and National House-Building Council (NHBC) reports. The monitoring data specifically considered for this update covers the period to 1st April 2020.

4.2 On this basis, this assessment of five-year land supply has a base date of 1st April 2020 and covers the five-year period to 31st March 2025. The assessment of the deliverable supply over this five-year period is structured to consider the following sources of supply.

Small Site Commitments

4.3 The small site commitments fall within part A of the NPPF definition of deliverable. They are “sites which do not involve major development and have planning permission”. The small site commitments cover sites for less than 10 dwellings (gross). Some of these sites are under construction whilst others are yet to be implemented.

4.4 Although the PPG no longer specifically requires this, a discount on the anticipated supply of small sites with permissions by a rounded 4% has been applied to take account of the number of planning permissions on small sites that, on average, have lapsed over the period since 2006/7. This data is set out in Table 1.

Table 1: Small Sites Lapsed Planning Permissions

Year	Small Sites with Planning Permission	Net Lapsed Units	% Lapsed
2006-2007	288	2	0.7
2007-2008	288	4	1.4
2008-2009	215	14	6.5
2009-2010	181	7	3.9
2010-2011	144	14	9.7
2011-2012	123	9	7.3
2012-2013	137	11	8.0
2013-2014	159	2	1.3
2014-2015	188	6	3.2
2015-2016	213	3	1.4
2016-2017	209	4	1.9
2017-2018	196	12	6.1
2018-2019	200	6	3.0
2019-2020	232	6	2.6
Total	2,773	100	3.6

4.5 For a 1st April 2020 base date, the monitoring data shows that there are planning permissions for a gain of 263 dwellings (gross) outstanding for sites of less than 10 dwellings. Taking account of the outstanding planning permissions for a permitted loss of 31 dwellings, the net additional number of dwellings to the supply would be 232. The detailed list of small sites with outstanding planning permissions is set out at Appendix A.

4.6 Once an allowance for lapses of 4% is included, it is considered that small site commitments will yield **223 dwellings within the five-year period**.

Large Site Commitments

4.7 The large site commitments fall within parts A and B of the NPPF definition of deliverable. They are sites with detailed planning permission and sites with outline planning permission for major development. The large site commitments cover sites with a capacity for 10 or more dwellings.

4.8 These sites include developments with outline and full planning permission, some of which may have started on site, and others which are yet to be implemented but are demonstrably capable of delivering units within the five-year period to 31st March 2025.

4.9 For the large site commitments, a detailed review has been undertaken by assessing the current planning status of the site (including discharge of conditions and any planning performance agreements) and available phasing plans, supplemented by discussions with the relevant agent and/or landowner/developer of the sites, to ascertain the likely commencement and build out rate of the individual schemes. The delivery assumptions for individual sites are shown in Appendix B along with the number of completions that have been recorded through Building Control, National House-Building Council reports and annual site visits undertaken at the end of each financial year by Hampshire County Council and Eastleigh Borough Council for the period 1st January to 31st March 2020.

4.10 Given the detailed review undertaken, it is not considered a discount for non-implementation for large sites to be warranted which is not, in any event, required by the PPG.

4.11 For a 1st April 2020 base date there are 35 large committed sites which are expected to contribute to the five-year land supply. Of these sites, 18 were under construction and nearly 680 plots were recorded as having commenced. Appendix B sets out the delivery assumptions for these sites, provides a commentary on site progress, and summarises information ascertained through direct engagement with site promoters/developers and other sources of information.

4.12 Collectively there are 5,561 dwellings (net) which are yet to be built across these 35 sites. Of this, **3,558 dwellings are expected to be built within the five-year period to 31st March 2025**. There are thus a further 2,003 dwellings on these sites which are expected to be delivered in Years 6+.

4.13 Information provided by site promoters/developers on delivery expectations have also been reviewed in light of the above information to ensure that delivery assumptions are realistic

Sites subject to a Resolution to Grant Planning Permission

4.14 These sites relate to part B of the NPPF definition of deliverable i.e. sites with a grant of permission in principle, but permission has not technically been issued yet. This includes sites with resolutions to grant planning permission prior to the base date of 1st April 2020.

4.15 There are 3 sites within this category, these are set out at Appendix C with commentary on the latest position.

4.16 The sites within this category has a total net capacity for 487 dwellings. Taking account of the evidence of likely timescales for issuing of decision notices (and any necessary legal agreements), subsequent discharge of any pre-commencement conditions, other non-planning factors impacting on implementation and subsequent anticipated build out rates, we **expect that 174 of the dwellings to be delivered from this source of supply within the five-year period to 31st March 2025**.

Specialist Housing for Older People

4.17 In its guidance on how to calculate a five-year housing land supply, the NPPG (para. 043, ref. ID: 3-043-20180913) states that local planning authorities should ‘count housing provided for older people, including residential institutions in Use Class C2, against their housing requirement’.

4.18 To establish the amount of accommodation released in the housing market, the guidance indicates that authorities should base calculations on the average number of adults living in households using the published Census data. This is ‘to establish the amount of accommodation released in the housing market.’

4.19 The 2011 Census estimated that there were 97,048 adults (aged 16 or over) living in 52,176 households in Eastleigh. This provides a ratio of 1.86 adults per household. The number of dwellings generated by accommodation in C2 use can therefore be derived by dividing the number of bed spaces by 1.9. (see appendix E)

4.20 There are currently 2 sites within this category, and this site is set out at Appendix D with commentary on the latest position.

4.21 There are 70 bed spaces associated with one of these sites, which is the equivalent of 38 dwellings. However, there is also a site for the loss of 39 bed spaces, which are expected to be lost within the five-year period to 31st March 2025. This would mean a net equivalent of 17 dwellings expected within the five-year period.

Windfall

4.22 Eastleigh Borough Council has had a consistent approach to windfall sites that has been set out and evidenced within its position statements on Five-Year Housing Land Supply, its recent ‘Housing Trajectory Update’ published in June 2019 and the Strategic Land Availability Assessment (SLAA) prepared to inform the replacement Eastleigh Borough Local Plan 2036.

4.23 The Inspector at the previous Eastleigh Borough Local Plan 2029 examination in his conclusions to the hearings considered the Council’s approach to be justified. Paragraph 63 of the Inspector’s Report of February 2015 (EBC 3.4) states:

“The Council has included small site windfalls in years 3-5 of the five year supply and from year six onwards. The inclusion of the contribution from windfalls from year three is justified given the Council's evidence on the time within which planning permissions are normally implemented and thus avoids double counting.”

4.24 The Council’s ‘Housing Trajectory Update’ para 95, provides a methodology for a 2012-NPPF compliant approach that continues to exclude garden land from a small site windfall approach. The calculation is presented at Table 2.

Table 2: Windfall Calculation

Small Sites Windfall Allowance	Number of Dwellings
Net Small Site Completions 2011/12-2019/20	474
Average Annual Small Site Completions 2011/12-2019/20	53
Average Annual Small Site Completions on Garden Land 2011/12-2019/20	17
Small Sites Windfall Allowance excluding Garden Land	36

4.25 Taking a cautionary approach it is considered to be appropriate for an annual allowance within years 4 and 5 of the five-year housing land supply. This would give a total of 72 dwellings (36 dwellings per annum) over years 4 and 5 on sites of less than 10 dwellings.

4.26 Whilst the windfall allowance used in this calculation is justified and robust according to the NPPF and relevant PPG guidance, a sensitivity analysis has been taken to determine the impact on the five-year housing supply without windfall. Windfall represents 72 dwellings out of a total supply of 4,053 dwellings, or 1.8% of total supply. Removing windfall would take off roughly 0.1 years of eligible supply.

Total expected supply 2020-2025

4.27 From the analysis of the various sources of housing supply mentioned above, the number of dwellings that can be considered deliverable over the period 1st April 2020 to 31st March 2025 is 4,053 dwellings. This is set out in Table 3 below.

Table 3: Housing Supply 1st April 2020 to 31st March 2025

Housing Supply 1st April 2020 to 31st March 2025

Source of Supply	Number of Dwellings
Net Outstanding Permissions for small sites (1-9) units (discounted by 4% for Lapses)	232
Net Outstanding planning permissions for large sites (10 or more units)	3,558
Sites with a resolution to grant planning permission	174
Housing for Older People (C2) (Equivalent no. of net dwellings)	17
Windfall allowance for years 4 and 5	72
Total expected supply for the period 1 st April 2020 – 31 st March 2025	4,053

5 The Five Year Housing Land Supply Calculation

5.1 In this section we move on to outline the five-year land supply position, against the local housing need figure as calculated using the standard method set out in the PPG. As set out above, the five-year period is taken from 1st April 2020 to 31st March 2025. An alternative calculation, using the emerging Local Plan 2036 housing requirement is also provided.

Calculation of the Five-Year Housing Land Supply Position

5.2 Table 4 illustrates Eastleigh Borough Council's Five-Year Housing Land Supply Position with the 5% buffer applied to the housing requirement. On the basis of including sites with planning permission and also sites that only have resolution to permit where inclusion can be justified (see Appendix C), then Eastleigh Borough can demonstrate a land supply of 5.6 years, and would therefore be able to demonstrate a five-year housing land supply.

Table 4: Five Year Land Supply Calculation (1st April 2020 Base Date)

Five Year Land Supply Calculation (1st April Base Date)

Column ID	Housing Requirement 1st April 2020 - 31st March 2025	Eastleigh Borough
a	Objectively Assessed Housing Need: Dwellings per annum 2019-29	694
b	Total Objectively Assessed Need for 1st April 2020 - 31st March 2025	3,470
	Buffer	
c	5% buffer; (b*5%)	174
d	Total Housing Requirement for period from 1st April 2020 - 31st March 2025 (c+b)	3,644
e	Annual Requirement over the period 1st April 2020 - 31st March 2025 (d/5)	729
	Housing Supply 1st April 2020 - 31st March 2025	
f	Net outstanding planning permissions for small sites (1-9 units) expected to be built by 31st March 2025 (discounted by 4% for lapses)	232
g	Net Outstanding planning permissions for large sites (10 or more units) expected to be built by 31st March 2025	3,558
h	Sites with Resolution to Grant Planning Permission that are expected to be built by 31st March 2025	174
i	Specialist Elderly Housing (C2) (equivalent net dwellings)	17
j	Windfall Allowance for year 4 and 5	72
k	Expected Supply for the period 1st April 2020 - 31st March 2025 (f+g+h+i+j)	4,053
l	Housing Land Supply Position over period 1st April 2020 - 31st March 2025 (k-d)	410
m	Supply in Years (k/e)	5.6

5.3 As set out earlier in the report this is a slightly conservative judgement as there is no actual requirement to discount for non-delivery. **The conclusion is therefore that, based on the latest evidence, the five-year housing land supply in Eastleigh Borough comfortably exceeds five years at 5.6 years.**

Alternative Calculation of the Five-Year Housing Land Supply Position

5.4 Additionally, a calculation of the five-year housing land supply position was made against the housing requirement figure in the submitted Local Plan with a 10% buffer.

5.5 Table 5 illustrates Eastleigh Borough Council's Five-Year Housing Land Supply Position with the 10% buffer applied to the housing requirement. On the basis of including sites with planning permission and also sites that only have resolution to permit where inclusion can be justified (see Appendix C) then Eastleigh Borough can demonstrate a land supply of 5.1 years and would therefore be able to demonstrate a five-year housing land supply.

Table 5: Five Year Land Supply Calculation (1st April 2020 Base Date)

Five Year Land Supply Calculation (1st April Base Date)

Column ID	Housing Requirement 1st April 2020 - 31st March 2025	Eastleigh Borough
a	Housing Requirement Figure in Submitted Local Plan: Dwellings per annum	729
b	Housing Requirement Figure in Submitted Local Plan for 1st April 2020 - 31st March 2025	3,645
	Buffer	
c	10% buffer; (b*10%)	365
d	Total Housing Requirement for period from 1st April 2020 - 31st March 2025 (c+b)	4,010
e	Annual Requirement over the period 1st April 2020 - 31st March 2025 (d/5)	802
	Housing Supply 1st April 2020 - 31st March 2025	
f	Net outstanding planning permissions for small sites (1-9 units) expected to be built by 31st March 2025 (discounted by 4% for lapses)	232
g	Net Outstanding planning permissions for large sites (10 or more units) expected to be built by 31st March 2025	3,558
h	Sites with Resolution to Grant Planning Permission that are expected to be built by 31st March 2025	174
i	Specialist Elderly Housing (C2) (equivalent net dwellings)	17
j	Windfall Allowance for year 4 and 5	72
k	Expected Supply for the period 1st April 2020 - 31st March 2025 (f+g+h+i+j)	4,053
l	Housing Land Supply Position over period 1st April 2020 - 31st March 2025 (k-d)	44
m	Supply in Years (k/e)	5.1

Local Plan Site Reference	Address	Application Reference	Total Net Dwellings	Net Outstanding Apr20	Planning Status	Planning Permission Expiry	Completions Jan-Mar 20	20/21	21/22	22/23	23/24	24/25	5 Year Supply	1 April commentary
	Bishopstoke													
	The Mount Hospital, Church Road, Bishopstoke, Eastleigh	O/12/71007 R/12/71814 F/13/73226 F/14/75061 F/17/80513	217	53	Reserved Matters	Under Construction	0	30	23	0	0	0	53	The site received Outline Planning Permission in 2012 and a number of subsequent Reserved Matters applications and Full Planning applications have enabled the delivery of 164 dwellings over 3 Phases. 22 units were completed last year, 2 more than expected. Thus the 53 will continue to be rolled out at the same delivery rate. Blocks 27 to 31 are currently under construction. There are no site-specific risks associated with the delivery of the remaining dwellings.
	58-64 Stoke Common Road, Bishopstoke, Eastleigh	F/19/86348	7	7	Full Permission	17-Mar-23	0	0	0	7	0	0	7	Full planning permission was granted on 17th March 2020 for 10 dwellings. An existing 3 dwellings are to be demolished.
	Botley													
	Land north and east of Boorley Green, Winchester Road, Botley	O/12/71514 R/15/77595 R/16/79470	1330	704	Reserved Matters	Under Construction	52	120	90	85	100	120	515	The site received Outline Planning Permission for 1,400 dwellings in November 2013. 70 of the 1,400 are for C2 sheltered elderly accommodation. There is a consortium of three developers for the site which comprises Bloor Homes, Bovis Homes and Linden Homes. The site has received Reserved Matters approval for (a) spine road and associated infrastructure (b) 441 dwellings and (c) 889 dwellings, with the most recent approved in October 2017. Of note, Section 278 agreements for the Winchester Road and Maddoxford Lane highways works associated with the site were signed on 19 April 2016. So far 625 dwellings have been completed on site with over 100 dwellings under construction at 1st April 2020.
	Land at Crows Nest Lane, Botley	O/16/78389 RM/18/83875	50	50	Reserved Matters	25-May-20	0	0	0	35	15	0	50	The site received Outline Planning Permission on 28th July 2017. The housebuilder is Foreman Homes. A reserved matters application was approved on 25th November 2019.

Local Plan Site Reference	Address	Application Reference	Total Net Dwellings	Net Outstanding Apr20	Planning Status	Planning Permission Expiry	Completions Jan-Mar 20	20/21	21/22	22/23	23/24	24/25	5 Year Supply	1 April commentary
	Land north west of Boorley Green, Winchester Road, Botley	O/15/75953 RM/17/81628	680	680	Reserved Matters	16-Jan-21	0	0	0	50	75	75	200	The site received Outline Planning Permission following an appeal which was allowed in December 2016. The applicants were Gleeson Developments, Miller Homes & Welbeck Land. A Reserved Matters Application for 301 dwellings was approved on 16th January 2019. A Reserved Matters Application has been submitted for a further 143 in Phase 2 (RM/18/84466) and is currently under consideration. A further application for Phase 3 (RM/19/86658) of the development has also been submitted for 236 dwellings and is also under consideration. The development called Boorley Gardens is likely to be sold to developers by the site promoters. Whilst Miller Homes is a developer, Welbeck is not, and they have control over the access under promotion agreement. The site is therefore looking to being parcelled up as a whole and taken to market. Timing is therefore subject to the post COVID-19 market. Miller Homes and Luken Beck on behalf of the consortium are currently submitting Discharge of Condition Applications.
BO1	Land south of Maddoxford Lane, Boorley Green	O/16/79600 RM/19/84879	49	49	Outline Permission	29-Mar-20	0	0	0	30	19	0	49	The site received Outline Planning Permission on 29th March 2018. The site was sold to Foreman Homes and a Reserved Matters Application was submitted 30th January 2019. The developer has confirmed that the site is still at the planning stage and therefore a conservative approach has been applied with the first expected completions being moved back into 2021/22. An existing dwelling is expected to be demolished. Foreman Homes also have a full application (F/19/84937) for 86 dwellings pending for this site. This application would supercede the permission for 49 if approved. RM/19/84879 pending
	Bursledon													
	Land east of Dodwell Lane/North of Pylands Lane, Bursledon	O/12/71522 R/14/75595 R/15/76606	249	1	Reserved Matters	Under Construction	38	1	0	0	0	0	1	The site has Reserved Matters approvals for all 249 dwellings over two phases. Bellway Homes is the developer of the site. 108 dwellings were completed in 2018/19 with a further 104 dwellings completed in 2019/20. The 1 remaining dwelling is expected to complete in 2020/21.

The developer is Highwood. Reserved Matters approval has subsequently been approved for two phases: Phase 1 - 560 dwellings Phase 2 - 514 dwellings Development has commenced on site and the developer's construction programme has informed the build out rates set out. Inspector at Mallards Way appeal agreed with this approach to delivery. 109 units were completed in 2018/19 and a further 322 units have been completed in 2019/20.
	1C and 1D North Stoneham Park, Chestnut Avenue / Stoneham Lane	RM/18/84537	26	26	Reserved Matters		0	0	0	26	0	0	26	The site - which is linked to other developments in Stoneham Park - received Full Planning Permission for 26 dwellings on 14th March 2019. The developer is Highwood. The site will be brought forward alongside the wider site and will be delivered within the five-year period. Retirement homes developers Cinnamon are expected to be bringing the site forward with the site looking to commence towards the end of 2020.
	North Stoneham Park, Chestnut Avenue [Additional to 1,100]	F/17/81165	39	39	Full Permission	29-Mar-23	0	0	0	39	0	0	39	The site - which is linked to site other developments in Stoneham Park - received Full Planning Permission for 39 dwellings on 29th March 2018. The developer is Highwood. The site may not come forward as early as previously thought as the scheme may be amended, however, the scheme is still expected to be delivered within the five-year period.
	10-20 Romsey Road, Eastleigh	F/16/77785	49	49	Full Permission	Under Construction	0	0	49	0	0	0	49	This site received Full Planning Permission on 27th February 2018. The developer is due to demolish the existing properties in advance of building works commencing. Application for Discharge of Conditions was received in May of 2019 with site clearance having commenced in November 2019 and completed in early 2020. The site is likely to complete in 2021/22.
	4-6 High Street, Eastleigh	F/18/84679	10	10	Full Permission	29-Mar-22	0	0	0	10	0	0	10	10 flats above and behind retained ground and first floor commercial premises. Full planning permission was given on the 29th of March 2019. No conditions have been discharged.
	27-29 Market Street, Eastleigh	PN/19/86710	10	10	Prior Approval	09-Dec-22	0	0	0	10	0	0	10	Prior approval was granted on 9th December 2019 for change of use of the 1st and 2nd floors from office use to 10 flats.
	Fair Oak													

Local Plan Site Reference	Address	Application Reference	Total Net Dwellings	Net Outstanding Apr20	Planning Status	Planning Permission Expiry	Completions Jan-Mar 20	20/21	21/22	22/23	23/24	24/25	5 Year Supply	1 April commentary
	St. Swithun Wells Church and Adjacent Land, Allington Lane, Fair Oak	O/13/72471 RM/17/81871	72	31	Reserved Matters	Under Construction	29	20	11	0	0	0	31	The site received Reserved Matters approval on 21st March 2018 for all 72 dwellings. The developer is Linden Homes. The development is under construction and has had 41 completions 2019/20.
	Land to the west of Hammerley Farm, Burnetts Lane, Horton Heath (phase 1)	F/15/77500	67	53	Full Permission	Under Construction	5	30	23	0	0	0	53	The site received Full Planning permission on 18th August 2017. The developer is Foreman Homes and they have confirmed that the timeline shown is correct. One dwelling has been completed in 2018/19, with a further 13 dwellings having been recorded as completed 2019/20. Phase 2 of the site (listed below) is for 37 dwellings.
	Land to the west of Hammerley Farm, Burnetts Lane, Horton Heath (phase 2)	F/16/79704	37	37	Full Permission	Under Construction	0	22	15	0	0	0	37	This is phase 2 of the Hammerley Farm site and is also being developed by Foreman Homes. Full planning permission was granted on 5th October 2018 for 37 dwellings. The site is under construction and is expected to complete in 2020/21.
HH1	Fir Tree Farm and Victoria Farm, Fir Tree Lane, Horton Heath	O/16/79354	450	450	Outline Permission	Material Start	0	0	0	0	50	100	150	The site received Outline Planning Permission on 17th November 2017 and is being brought forward alongside Land West and South of Horton Heath (see O/14/75735). Eastleigh Borough Council is now the developer for both sites, as well as for the emerging Local Plan allocation FO5, and will be bringing forward the land covered by those three elements as one single major development which is expected to begin delivering residential units from 2023. The site now includes two phases called A1 and sub phase A2. Permission has been kept live through a variation application (X/19/86303), submission of first reserved matters (RM/19/86792) for the A1 footpath (Firtree-Quobleigh) and discharge of conditions. Eastleigh Borough Council are looking to submit a new outline planning application in Feb 2021. The first Phase RM is scheduled for submission Nov this year, with a target of March 2021 for a decision. The first parcel is likely to be up to 500 homes. Phase A1 is the footpath and sub phase A2 is the access infrastructure (roundabout at Allington Lane and first bit of road into the site). Work on the infrastructure is likely to start in quarter 1 of 2020/21.

FO5	Land east of Knowle Lane, Fair Oak	F/17/80640 RM/18/83737	34	29	Reserved Matters	Under Construction	5	29	0	0	0	0	29	The site received Hybrid Planning Permission including Outline Planning Permission for 34 dwellings on 26th January 2018. Reserved matters application was approved on 1st November 2018 and work has commenced on all plots on site with 5 completions recorded by the end of March 2020.
	CWM, Corner of Mortimers Lane and Knowle Lane, Fair Oak	F/16/78074	27	27	Full Permission	26-Jan-21	0	0	0	27	0	0	27	The site received Full Planning permission on 26th January 2018.
	Pembers Hill Farm, Mortimers Lane, Fair Oak	O/15/77190 RM/18/83278	242	242	Reserved Matters	Under Construction	0	40	50	50	50	52	242	The site received reserved matters on 28th November 2018 and work commenced on site in June 2019. Around 10-15 plots up to roof at the 1st April.
FO2	Land north of Mortimers Lane, Fair Oak (Phase 1)	F/17/82099	59	23	Full Permission	Under Construction	31	23	0	0	0	0	23	Full planning permission was granted on 21st March 2018. Works have commenced on site and 36 dwellings were completed in 2019/20.
FO2	Land North of Mortimers Lane and West of Hall Lands Lane (Phase 2)	F/18/83986	26	26	Full Permission	04-Dec-22	0	0	10	16	0	0	26	The site is additional to Land North of Mortimers Lane (F/18/83986). The application was validated on 11th October 2018 and granted permission on 4th December 2019.
FO3	Fair Oak Lodge, Allington Lane	O/17/81864 RM/18/84195	48	42	Reserved Matters	Under Construction	6	32	10	0	0	0	42	Reserved matters were granted on 14th January 2019. Bargate are the developer and have confirmed that groundworks commenced in September 2019. There were 6 completions in 2019/20. There is a loss of an existing dwelling so the net figures are only for 48. 32 completions are anticipated for this financial year, leaving 10 to rollover into the next year.
	Hedge End													

Local Plan Site Reference	Address	Application Reference	Total Net Dwellings	Net Outstanding Apr20	Planning Status	Planning Permission Expiry	Completions Jan-Mar 20	20/21	21/22	22/23	23/24	24/25	5 Year Supply	1 April commentary
HE1	Land west of Woodhouse Lane	O/18/83634	605	605	Outline Permission	06-Sep-22	0	0	0	0	55	104	159	Site is owned by Hampshire County Council and proposed to be allocated in the Local Plan 2011-2029. Application submitted 17th July (ref O/18/83694) with permission granted in 9th September 2019. Delivery assumptions take account of time to determine application and negotiate S106, appoint development partner/ dispose, progress and determine reserved matter application. These delays reflect the Mallards Road Inspector's decisions. Essential infrastructure works are expected to go out to tender early Q1 2020/21. Current plans are for the 1st phase of Woodhouse Lane (phase 2a & 2b) and Winchester Street (phase 1) to be brought to the market in January 2021.
HE2	Land west and north of Waylands Place and Peewit Hill Close	F/17/80651	106	106	Full Permission	20-Oct-20	0	0	0	45	40	21	106	The site received Full Planning Permission on 13th October 2017 and sits alongside Land at St Johns Road/Foord Road for 110 dwellings which has now completed. The developer is Foreman Homes. The site is also known as St. Johns Phase 2. The developer has confirmed that discussions with land owners continue but that currently they are unable to confirm when the development will be built. A cautious approach has therefore been taken and the build out rates have been moved back towards the end of the 5-year supply.
	Netley													
	Land North of Grange Road, Netley Abbey	O/16/78014 RM/19/86186	89	89	Reserved Matters	10-Feb-21	0	0	0	45	44	0	89	The site received Outline Planning Permission 8th January 2018. Reserved Matters has been submitted and was approved on 10th February 2020. The site is likely to then be sold on. The programme has therefore been pushed back towards the end of the 5 years.
	Abbey Fruit Farm, Grange Road, Netley Abbey	O/16/79466 RM/19/84823	92	92	Reserved Matters	26-Nov-20	0	0	0	45	45	2	92	The site received Outline Planning Permission on 21st March 2018. The developer for the site is Orchard Homes. The Reserved Matters application was permitted on the 26th November 2019. We are awaiting developer confirmation but have pushed the programme back one year. There is an existing dwelling on site that will be lost as part of the scheme.
	West End													

Local Plan Site Reference	Address	Application Reference	Total Net Dwellings	Net Outstanding Apr20	Planning Status	Planning Permission Expiry	Completions Jan-Mar 20	20/21	21/22	22/23	23/24	24/25	5 Year Supply	1 April commentary
	Land off Botley Road, West End	O/15/76418 RM/18/82821	100	100	Reserved Matters	Site Preparation	0	5	30	30	30	5	100	The site received Outline Planning Permission on 7th October 2016. The developer is Foreman Homes. A Reserved Matters application was permitted on 5th March 2019. The developer has confirmed that site preparation has taken place in November 2019.
HH1	Chalcroft Farm and Land West of Burnetts Lane, Horton Heath	O/14/75735	950	950	Outline Permission	Material Start	0	0	0	40	170	160	370	The site received Outline Planning Permission on 22nd December 2017 and is being brought forward alongside Land West and South of Horton Heath (see O/16/79354). Eastleigh Borough Council is now the developer for both sites, as well as for the emerging Local Plan allocation FO5, and will be bringing forward the land covered by those three elements as one single major development which is expected to begin delivering residential units from 2023. The permission has been kept live by an application for variation (X/18/84413) which amended the phasing and added a Phase 1A for a footway/cycleway along Burnetts Lane. Application (X/19/86475) is a further variation that amends the phasing parameter plan to include Phase 1B for access and infrastructure works. These access works have been implemented under the revised outline. There has also been a submission of the first reserved matters (RM/18/84657) for the Phase 1A footway/cycleway. Eastleigh Borough Council are looking to submit a new outline planning application in Feb 2021. The first Phase RM is scheduled for submission Nov this year, with a target of March 2021 for a decision. The first parcel is likely to be up to 500 homes. Phase A1 is the footpath and sub phase A2 is the access infrastructure (roundabout at Allington Lane and first bit of road into the site). Work on the infrastructure is likely to start in quarter 1 of 2020/21.
